To whom it may concern:

During the floods in 1993 DRY BASEMENT, INC. had used the services of Brenda Grismore and Lance Houston for our interior demolition and gutting needs. We feel that the work performed by these individuals and the business was done so in a satisfactory and professional manner. We would recommend this company and these individuals to anyone in need of this service.

Sincerely,
DRY BASEMENT, INC.

Otto W. Fleck
President
