Re: Letter of Reference for Environmental Audit and Compliance.

To Whom It May Concern:

Environmental Audit and Compliance, EAC, has completed two projects for the Unified Government for which I was the Project Manager. These were removal of an underground tank at 4th and Armstrong complete with testing and compliance documentation, and tornado debris removal from multiple sites near 80th and Cernech.

EAC completed both jobs satisfactorily: on time, with good workmanship. One job required documentation for EPA compliance, the other documentation of FEMA reimbursement. The documentation was again taken care of on time and with no defects.

I would willingly work with ECA again.

Sincerely

Bill Blackwell, P.E.
Deputy County Engineer
